

# Choosing Your DD Tarp

DD Tarps come in a range of sizes, and every model has a huge variety of uses. If you are looking for a tarp but unsure of what size you may need, take a look at the size chart below to help you come to a decision, compared to a standard-sized DD Hammock and our intrepid 6ft/182cm tall adventurer.

If you have a particular usage in mind, consult the table below for our recommended uses. Please note - these suggestions are not exact, but more a basic guideline on what product we would suggest would best fit your needs. DD Tarps are very versatile owing to their light weight and multiple attachment points.
